JavaScript • React • Next.js • ERPNext • WordPress • WooCommerce • Figma • Firebase • Strapi

Work Experience

Front End Developer

Sep 2020 – present

NetArt • Full-time

Remote

Technologies: React • JavaScript • Next.js • ERPNext • WordPress

- Led full-cycle development of 20+ projects, overseeing everything from project scope and timeline creation to final delivery, ensuring all projects met deadlines and exceeded client expectations.
- Regularly conducted code reviews to ensure high standards of code quality, maintainability, and adherence to best practices, contributing to an overall 25% reduction in bugs and technical debt.
- Managed cross-functional teams, collaborating with UI/UX designers, SEO specialists, and content teams to deliver cohesive and highly optimized digital experiences across multiple platforms.
- Designed and implemented reusable components and systems, significantly reducing development time and enhancing the maintainability and scalability of multiple projects across various clients.
- Streamlined content management processes by integrating efficient headless CMS platforms, empowering clients to independently manage their website content.
- Led the integration of ERPNext for business process automation, streamlining HR workflows and improving employee onboarding through automated access restrictions, resulting in a 40% operational efficiency boost.
- Developed custom solutions using ERPNext, enhancing business workflows and delivering tailored functionalities for clients, resulting in improved system adoption and operational efficiency across departments.
- Developed a fully functional and modern e-commerce website using WooCommerce, resulting in a 40% increase in online sales by enhancing user experience and performance.
